

rlpNetwork is an entirely new website with a modern, contemporary design. It is easier to find the information and tools you need, and to engage and collaborate with your fellow Royal LePagers. It has the distinction of being the first Intranet site to integrate with Google Apps for Work™. The new rlpNetwork's benefits are:

1. It's easy to use.

A new, vibrant look with more images and pared-down text, along with intuitive navigation are cornerstone to the new rlpNetwork. Locate everything you need to be productive and efficient with the tools you use each day. Menus build out in predictable ways, so you can easily find related topics. Common tasks are highlighted, such as "I want business cards," to lead you directly to the tools to get your tasks done.

2. You can search for what you need.

Just type it in and you can find it. The Google search bar returns search results from content pages as well as documents. In addition, the agent referral directory has been updated. Now you can enhance your profile and more easily search for anyone across Royal LePage and understand more about them and their areas of expertise.

3. It alerts you to what's new.

One login launches you into both rlpNetwork and your Google accounts. You will see how many new emails you have if you use the @royallepage.ca email address; new documents that have been shared with you, and; new posts in the communities you belong to.

4. It allows you to exchange best practices.

Through Google Communities, you will be able to ask questions as well as share information and best practices with like-minded people. rlpNetwork will not just provide information, it will allow you to leverage the knowledge of all of your peers in the network.

you

"Royal LePage has brought leading edge, award-winning technology to **royallepage.ca**, **m.royallepage.ca** and the **iPhone® app** in recent years. This year, we are doing the same for rlpNetwork," said Carolyn Cheng, SVP, Strategic Business Services. "Make sure you watch the launch video to check out the new features. We encourage all Royal LePagers to log into the new rlpNetwork and put it to work for you today!"
